1. Introduction

This document is published by Credit Suisse Securities (Europe) Limited of One Cabot Square, London, E14 4QJ, United Kingdom.

1.1. What is the DRP Index 7?

The DRP Index 7 (formerly called the Dynamic Planner Index 7) is a rules-based investible index constructed by the Index Creator and governed by the Index Rules. The DRP Index 7 has its own rules-based investment strategy (the “**Strategy**”) which is comprised of:

- An exposure to a range of underlying assets (each an “Index Component” and together the “Index Components”);
- A discretionary allocation mechanism allowing the Index Rebalancing Entity to rebalance the portfolio on a regular basis; and
- The Index will notionally make investments in a diversified multi-asset basket. The basket will contain assets that enable the return to be linked to the performance of equities, bonds, commodities and cash.

3. Rebalancing Methodology

In respect of the Index Start Date, the Weight for each Index Component i , shall be equal to the relevant Initial Weight (as specified in Table 2).

In respect of any Index Calculation Day t which is an Index Rebalancing Day, the Weight of each Index Component i , as initially defined in Table 2 or as amended on the previous Index Rebalancing Day, shall be subject to rebalancing.

The Index Rebalancing Entity may request for a change in Weight for any or all Index Components i , by sending an irrevocable signed notice to the Index Calculation Agent on or before the relevant Optional Notification Day, or such other method as may be agreed between the Index Rebalancing Entity and the Index Calculation Agent from time to time (the "Rebalancing Notice"), and, to be valid any such request will need to comply with the Investment Restrictions below, specifying the desired Weight and the desired Optional Rebalancing Day.

Any changes to the Weights shall be effective subject to the Index Rebalancing Entity's receipt of a signed written confirmation of acceptance by the Index Calculation Agent of the Rebalancing Notice where such written confirmation is addressed to the Index Rebalancing Entity, or such other method as may be agreed between the Index Rebalancing Entity and the Index Calculation Agent from time to time (the "Acceptance"). If the Index Calculation Agent does not confirm its Acceptance in writing to the Index Rebalancing Entity, then no change to the Weights shall be effected in respect of the relevant Optional Rebalancing Day.

The Index Calculation Agent has no obligation to monitor the Index Rebalancing Entity's exercise of discretion under the Index Rules.

Where:

Optional Notification Day	In respect of an Optional Rebalancing Day, 4 Index Calculation Days prior to the relevant Optional Rebalancing Day;
Optional Rebalancing Day	Each Index Calculation Day from (but excluding) the Index Start Date, provided that there may only be a maximum of 12 Index Rebalancing Days per calendar year;

- In respect of the Index Start Date:

$$RC_0^B = 0$$

- In respect of any following Index Rebalancing Day t_{Reb} :

$$RC_{t_{Reb}}^B = \sum_{i=1}^n \left(FI_i \times 1_{W_{i,t_{Reb}} \geq EW_{i,t_{Reb}}^A} + FO_i \times 1_{W_{i,t_{Reb}} < EW_{i,t_{Reb}}^A} \right) |W_{i,t_{Reb}} - EW_{i,t_{Reb}}^A|$$

In the event that the Index Value is published by the Index Calculation Agent and is amended after it is initially published, the amended Index Value will be considered the official fixing level and used in all applicable calculations. In the event that the published value of any Index Component, the Cash Rate or other Index input that could impact a calculation of the level of the Index, is changed or amended in respect of a time period prior to the day on which the Index Value is being determined, the Index Calculation Agent shall be under no obligation to recalculate the Index Value or make any corresponding adjustment to the Index Value in order to take account of such change by altering the Index Value. The Index Calculation Agent, in consultation with the Index Committee, nonetheless will have the discretion to make appropriate adjustments in good faith and in order to achieve a commercially reasonable outcome and (where there is a corresponding applicable regulatory obligation) shall take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations, in any particular situation, in light of the facts and circumstances of such situation.

The Index may be replaced by a successor index.

5.1. Index Precision

Extraordinary Event means any of the following events or circumstances:

- a) change in either (i) the liquidity of any Index Component (including the application of any gating, side-pocketing or other similar arrangement), (ii) the form of payment of a transaction linked to any Index Component, or (iii) the trading volume, terms or listing of any Index Component;
- b) change in any applicable law or regulation, or any decision or promulgation of any change in the interpretation by any court, tribunal or regulatory authority of any applicable law or regulation;
